

MOHAMMED YOUSEF AL-KHATIB

Doha, Qatar | +974 5544 9123 | m.alkhatib.instrumentation@email.com

PROFESSIONAL SUMMARY

Instrumentation and Control Engineer with over 7 years of experience in oil and gas and chemical processing plants. Hands on experience with DCS/PLC systems, field instrument calibration, and safety instrumented systems. Strong track record of maintaining plant uptime and supporting shutdown and turnaround activities.

CORE SKILLS

- DCS/PLC: Honeywell Experion, Siemens PCS7, Allen-Bradley ControlLogix
- Field Instrumentation: transmitters, control valves, flow meters, analyzers
- Safety Systems: ESD, F&G, SIS, SIL verification (IEC 61511)
- Calibration and loop checking, root cause analysis, MOC procedures

PROFESSIONAL EXPERIENCE

Instrumentation & Control Engineer

2019 - Present

Qatar Chemical & Petrochemical Marketing, Mesaieed, Qatar

- Maintain and calibrate over 800 field instruments across process and utility units.
- Configure and troubleshoot Honeywell Experion DCS to sustain continuous plant operation.
- Support SIS proof testing and SIL verification activities in line with plant safety standards.
- Coordinate instrumentation activities during planned shutdowns and turnarounds.

Instrumentation Engineer

2016 - 2019

Arabian Gulf Petrochemicals Co., Jubail, Saudi Arabia

- Performed preventive and corrective maintenance on transmitters, control valves and analyzers.
- Assisted in PLC configuration changes and control loop tuning for process optimization.
- Prepared instrument datasheets, loop diagrams and calibration records.

EDUCATION

B.Sc. in Instrumentation and Control Engineering - University of Jordan, Amman, Jordan (2016)

CERTIFICATIONS

- Functional Safety Engineer (SIS/SIL) - TUV certified
- Honeywell Experion PKS Systems Certification
- Valid Qatar Driving License
